Client	Year	Site	Description
MAFLOW BRS S.r.l.	2019	Ascoli Piceno (AP)	Multiannual agreement renewal for Steam Supply (18 bar-g saturated steam, maximum flow rate: 10 t/h) for the manufacturing process at the factory and general heating needs - duration: 5 years
TEP ENERGY SOLUTION S.r.l.	2019	varie	Engineering support for Energy Audits
TEP ENERGY SOLUTION S.r.l.	2019	varie	Framework agreement for engineering support for the development of energy efficiency operations
CO-VER Power Technology S.p.A.	2019	Novara (NO)	Revamping investment at the Novara power plant with the replacement of 3 engines of about 9 MW in total
CO-VER Power Technology S.p.A.	2019	Sessa Aurunca (CE)	Revamping investment of the second section of Sessa Aurunca power plant with the replacement of 2 engines totalling 7.2 MW
MEMC ELECTRONIC MATERIALS S.p.A. Global Wafers	2019	Novara (NO)	Renewal of the Ultra-annual (10 years) Contract for the Energy Supply Service (electricity, steam, chilled water) with revamping of the Trigeneration Power Plant, execution of the hot water recovery system.
MAFLOW BRS S.r.l.	2019	Ascoli Piceno (AP)	Energy audit
ATB RIVA CALZONI RINNOVABILI	2019	Verbania (VB)	Wind Supervisor - aim of the project is identifying and conveying the productivity data of 7 wind turbines in a centralized database. The existing control systems of these turbines have not been altered in any way.
I.M.P. Imballaggi Materie Plastiche S.p.A.	2019	Altavilla Vicentina (VI)	Maintenance contract on the service facilities
TEP ENERGY SOLUTION S.r.l.	2019	Loreto (AN)	O & M 1 Mwe cogeneration plant installed in Loreto
TERME DI PREMIA S.R.L.	2018	Premia (VB)	Feasibility study for rebuilding / upgrading of the thermal power plant
ADLER EVO SRL	2018	Cassino (FR) - Italy	Engineering services for the design of a new trigeneration diathermic oil power plant
AMARC DHP SRL	2018	Bazzano (AQ) - Italy	EPCM services for a new trigeneration power plant of 4MWe
Multinational paper mill, world leader in the design and production of release media	2018	Omegna (VB) - Italy	Plant energy monitoring system design
AMARC DHP SRL	2018	Viggiano (PZ) - Italy	Detailed mechanical design of the BoP for a new 4 MWe natural gas trigeneration plant
AMARC DHP SRL	2018	Viggiano (PZ) - Italy	Site Management service for a new trigeneration power plant
Ce.PIM S.p.A. Gruppo ENI	2018	Fontevivo (PR) Italy	Engineering services and diagnosis for a photovoltaic power plant with capacity of 1 MW
POLITECNICO UNIVERSITY	2018	Bovisa (Milan) - Italy	Engineering services for the design of a new trigeneration power plant (about 2 MWe)
HYDRO ENERGIA S.r.l.	2018	Tuscany - Italy	Site Management activities in hydroelectric power plants
EUROGRAVURE S.p.A. Arti Group	2018	Treviglio (BG) Italy	Definitive project to support authorization process revamping of trigeneration power plant about 7,5 Mw
GREEN UTILITY SPA	2018	Romagnano Sesia (NO) Italy	Engineering services for a company leader worldwide in cashmere and textile industry
NUOVO ISTITUTO ITALIANO D'ARTI GRAFICHE S.p.A. Arti Group	2018	Bergamo (BG) Italy	Maintenance activities at a pneumatic power plant installed at Bergamo factory.
TEP ENERGY SOLUTION S.r.l.	2018	Loreto (AN) Italy	Multiannual agreement for a 1 MW motor-generator lease

Client	Year	Site	Description
TEP ENERGY SOLUTION S.r.l.	2018	Aprilia (LT) Italy	Optimization of the automation of the chilled water system at a biochemical plant
Wood / chemical / furniture company	2018	Radicofani (SI) Italy	Consulting for purchasing a biomass boiler
TRELLEBORG WHEEL SYSTEMS ITALIA S.p.A.	2017	Tivoli (RM) Italy	Executive engineering of the electro-instrumental systems of the new nitrogen distribution system of the vulcanization department
MANUCOR SPA	2017	Sessa Aurunca (CE) Italy	Service contract for the supply of utilities produced in the trigeneration plant fueled by natural gas of 15.75 MWe by using motor generators. ESCo mode used for installation .
MEMC ELECTRONIC MATERIALS SPA	2017	Novara Italy	Executive plant engineering of new KOH department
MEMC ELECTRONIC MATERIALS SPA	2017	Novara	Executive plant engineering of repowering lapping department
MEMC ELECTRONIC MATERIALS SPA	2017	Novara Italy	Executive plant engineering of automatic rephasing system Cab CE1 - MEMC
IDROMECCANICA S.R.L.	2017	Treviso	Detailed mechanical design (detail) of the piping system of the Polyglass Mapei system
ELETTROTECNICA ROLD S.R.L.	2017	Cazzago San Martino (BS)	Lighting studio for the Brixiaplast site
TEP ENERGY SOLUTION S.r.l.	2017	Aprilia (LT)	EPCM services for the realization of the expansion of the fleet containing solvents at a pharmaceutical plant
OESA S.r.l.	2017	Roma	Feasibility study, preliminary and definitive engineering activities of a new "Energy Center" consisting of a trigeneration plant, heat pumps and district heating system for a new residential, sports and commercial center
TEP ENERGY SOLUTION S.r.l.	2017	Loreto (An) Italy	On-site technical verification of a 970 kW cogeneration plant at a steel and aluminum radiator manufacturing plant
AQUAFILSLO d.o.o.	2017	Ljubljana Slovenia	Action to replace chiller actuator and general checks
ELETTROTECNICA ROLD S.R.L.	2017	Udine Italy	Lighting calculation at University.
Leading company in the production of water pump bearings	2017	Momo (NO) Italy	Electrical engineering activities.
NUOVO ISTITUTO ITALIANO D'ARTI GRAFICHE S.p.A. Arti Group	2017	Bergamo (BG) Italy	Maintenance activities at a pneumatic power plant installed at Bergamo factory.
TRELLEBORG WHEEL SYSTEMS AMERICAS, INC.	2017	Spartanburg, SC USA	Basic and detailed engineering related to the installation of a new 10 t/h natural gas fueled steam generator.
MEMC ELECTRONIC MATERIALS SPA	2017	Novara Italy	Efficiency of refrigerated water generation and distribution system.
ELETTROTECNICA ROLD S.R.L.	2017	Fano (PU) - Venaria Reale (TO) Italy	Lighting engineering studies at Northern and Central Italy shopping centers.
TRELLEBORG WHEEL SYSTEMS ITALIA S.p.A.	2017	Tivoli (RM) Italy	Software development of the supervision system and monitoring on the factory utilities.
Multinational paper mill, world leader in the design and production of release media	2017	Crusinello (VB) Italy	Evaluation of the risk of exposure to electromagnetic fields - Crusinello factory.
TRELLEBORG WHEEL SYSTEMS ITALIA S.p.A.	2017	Tivoli (RM) Italy	Engineering studies for the strengthening of the factory hot water heating system.
MANULI HYDRAULICS Italia S.r.l.	2017	Ascoli Piceno (AP) Italy	Multiannual electrical maintenance activities - Ascoli Piceno MHI factory.
MAFLOW BRS S.r.l.	2017	Ascoli Piceno (AP) Italy	Multiannual compressed air supply service at Ascoli Piceno factory.
TEP ENERGY SOLUTION S.r.l.	2017	Aprilia (LT) Italy	Turn-key supply of a compressed air generation power plant at a pharmaceutical factory.
Company providing services and products for the industry and the tertiary sector	2017	Trecate (NO) Italy	Site technical assistance service at a chemical factory.

Client	Year	Site	Description
TEP ENERGY SOLUTION S.r.l.	2017	Aprilia (LT) Italy	EPCM contract for design, engineering coordination, support to project management, site supervision and commissioning for optimization of systems for production and distribution of chilled water at a pharmaceutical factory.
Multinational paper mill, world leader in the design and production of release media	2016	Crusinallo (VB) Italy	Project to obtain energy efficiency certificates after installation of inverters on a pump.
TEP ENERGY SOLUTION S.r.l.	2016	Anagni (FR) Italy	Engineering services for the preliminary design of the energy consumption monitoring system leading up to the UNI CEI EN ISO 50.001 at a pharmaceutical factory.
TEP ENERGY SOLUTION S.r.l.	2016	Aprilia (LT) Italy	Engineering services for optimization of systems for production and distribution of chilled water to air treatment units at a pharmaceutical factory.
Leading company in the production of water pump bearings	2016	Momo (NO) Italy	Update of technical documentation concerning the existing electrical system.
NUOVO ISTITUTO ITALIANO D'ARTI GRAFICHE S.p.A. Arti Group	2016	Bergamo (BG) Italy	Maintenance activities at a pneumatic power plant installed at Bergamo factory.
Leading company in the production of active pharmaceutical ingredients.	2016	Settimo Torinese (TO) Italy	Owner engineering activities for a new Thermal Power Plant with three natural gas fueled steam generators with a flow rate of about 20 t/h each and related thermal circuit.
Multinational leader in the production of sterile injectable drugs	2016	Anagni (FR) Italy	Engineering services concerning the EER measurement and calculation activities of chillers and relevant auxiliaries and evaluation of potential energy efficiency interventions.
Multinational leader in the production of advanced solutions for personal hygiene	2016	Ortona (CH) Italy	Engineering services concerning the EER measurement and calculation activities of the chiller and evaluation of potential energy efficiency interventions.
MANULI HYDRAULICS Italia S.r.l.	2016	Ascoli Piceno (AP) Italy	Renewal of the contract for Energy Supply Service (electricity, steam and hot water), with installation of a new 999kW motor generator - duration: 7 years. Activity realized in the Third-Party Financing mode.
MEMC ELECTRONIC MATERIALS S.p.A. Sun Edison Semiconductor	2016	Novara (NO) Italy	Maintenance activities and instrumental analysis on the MV and LV sub-stations - Novara factory.
NUOVO ISTITUTO ITALIANO D'ARTI GRAFICHE S.p.A. Arti Group	2016	Bergamo (BG) Italy	Engineering services related to modifications on the plant for production and distribution of chilled water - Bergamo factory.
Leading company in the production of water pump bearings	2016	Momo (NO) Italy	Engineering activities for the refurbishment of the safety lighting system.
Leading company in the production of water pump bearings	2016	Momo (NO) Italy	Engineering services for streamlining operations on the trafo sub-station.
Leading company in the production of water pump bearings	2016	Momo (NO) Italy	Maintenance activities and instrumental analysis on the MV and LV sub-stations.
TEP ENERGY SOLUTION S.r.l.	2016	Aprilia (LT) Italy	Engineering services for optimization of utilities production and distribution systems at a pharmaceutical factory.
TEP ENERGY SOLUTION S.r.l.	2016	Brindisi (BR) Italy	Basic engineering for the revamping of a refrigerating system and its auxiliaries at a pharmaceutical factory.
TEP ENERGY SOLUTION S.r.l.	2016	Modugno (BA) Italy	Engineering services supporting the management and optimization of the 7 Mwe cogeneration power plant (one gas turbine) at a tire production factory.
NUOVO ISTITUTO ITALIANO D'ARTI GRAFICHE S.p.A. Arti Group	2016	Bergamo (BG) Italy	Maintenance activities on the MT and BT electrical systems of the Bergamo factory.
EUROGRAVURE S.p.A. Arti Group	2016	Treviglio (BG) Italy	Multiannual rental agreement of a 315 kW variable speed compressor and dryer.
EUROGRAVURE S.p.A. Arti Group	2016	Treviglio (BG) Italy	Multiannual O&M contract of the 10 MW trigeneration power plant (two gas turbines) at the Treviglio factory.
Ce.PIM S.p.A. Gruppo ENI	2016	Fontevivo (PR) Italy	Testing of the transformer fitted at a photovoltaic power plant with peaking rated capacity of 1 MW.
TRELLEBORG WHEEL SYSTEMS ITALIA S.p.A.	2016	Tivoli (RM) Italy	Engineering services for basic and detailed design, procurement support, site supervision and commissioning of a process water cooling system through the use of free cooling.
A2L ENERGY S.r.l.	2016	Crusinallo (VB) Italy	Supervision agreement to the 3.7 MW cogeneration power plant (gas turbine) operation at a paper factory; 12-year duration.

Client	Year	Site	Description
TRELLEBORG WHEEL SYSTEMS AMERICAS, INC.	2016	Spartanburg, SC USA	Multiannual contract to support operation of the thermal power plant and utilities in the new USA factory.
Multinational company operating in the automotive sector	2016	Italy	Help the GSE (Energy Services Manager) with the application for energy efficiency certificates concerning the replacement of traditional lamps with LED light sources.
EUROGRAVURE S.p.A. Arti Group	2016	Treviglio (BG) Italy	Recertification of a 15 t/h firetube boiler for 72 h supervision exemption.
TRELLEBORG WHEEL SYSTEMS ITALIA S.p.A.	2015	Tivoli (RM) Italy	Engineering services for basic and detailed design, procurement support, site supervision and commissioning of a process water cooling system through the use of free cooling, related to the changes in the production and distribution system of 28 barg overheated water for tire vulcanization.
Energy production company operating in Central Africa	2015	Tema (Ghana)	Basic and detailed design activities, technical management of the project and commissioning of the control system (EPCM), including supervision on dismantling of two combined cycle power plants in Italy and their subsequent relocation in Central Africa in one power plant totaling about 100 MWe.
TEP ENERGY SOLUTION S.r.l.	2015	Crusinallo (VB) Italy	Energy audit in accordance with Legislative Decree 102/2014 at a paper factory.
TEP ENERGY SOLUTION S.r.l.	2015	Tivoli (RM) Italy	Energy audit in accordance with Legislative Decree 102/2014 at Trelleborg factory.
MANUCOR S.p.A.	2015	Sessa Aurunca (CE) Italy	Feasibility study aimed at optimization of the 4 MW heat transfer fluid loop and the chilled water distribution system.
Azienda operante nel settore materie plastiche	2015	Verbania (VB) Italy	Energy audit in accordance with Legislative Decree 102/2014.
TEP ENERGY SOLUTION S.r.l.	2015	Italy	Engineering services for the execution of energy audits in accordance with Legislative Decree 102/2014 for three Italian factories belonging to an international pharmaceutical group.
TEP ENERGY SOLUTION S.r.l.	2015	Lucca (LU) Italy	Detailed feasibility study for the revamping of a 7 MWe cogeneration power plant powered by a natural gas turbine for a paper factory.
Leading company in the design and construction of ORC turbines	2015	Italy Bulgaria	Automation engineering activities for the development of SCADA supervision systems: <ul style="list-style-type: none"> <li>· 1.2 MW ORC cycle, operating on process recovery heat - site: Italy.</li> <li>· 4.5 MW ORC cycle, operating on a heat recovery system (waste to energy) - site: Bulgaria.</li> </ul>
Leading company in the design and construction of ORC turbines	2015	France	Activities of mechanical and basic electro-instrumental engineering of a 1 MW ORC plant, operating on process heat recovery.
TEP ENERGY SOLUTION S.r.l.	2015	Italy	Engineering activities for feasibility studies regarding different sized natural gas fueled cogeneration power plants.
Leading company in the design and construction of ORC turbines	2015	Turkey	Commissioning activities for electric power plants with ORC cycles.
TRELLEBORG WHEEL SYSTEMS AMERICAS, INC.	2015	Spartanburg, SC USA	EPCM services related to engineering activities for the new thermal power plant and systems for production and distribution of utilities, supervision on erection and commissioning, including hardware supply and design of the new supervision and control system (DCS) for the new production facility in Spartanburg.
EUROGRAVURE S.p.A. Arti Group	2015	Treviglio (BG) Italy	Maintenance activities on the LV and MV electrical systems, HV 132 kV electricity substation and instrumental equipment of the Treviglio factory.
NUOVO ISTITUTO ITALIANO D'ARTI GRAFICHE S.p.A. Arti Group	2015	Bergamo (BG) Italy	Maintenance activities on the MV and LV electrical systems of the Bergamo factory.
Leading company in the design and construction of ORC turbines	2015	Turkey	Mechanical engineering activities for a 12 MWe ORC plant, operating on heat recovery from geothermal energy.
Leading company in the design and construction of ORC turbines	2015	Italy	Activities for the drawing up of the operation and maintenance manual of a 1.2 MW ORC plant operating on process heat recovery.
MEMC ELECTRONIC MATERIALS S.p.A. Sun Edison Semiconductor	2015	Novara (NO) Italy	Renewal of the multiannual (8 years) Agreement for Energy Supply Service (electricity, steam, chilled water), produced by a trigeneration power plant equipped with three natural gas fueled 11 MW rated capacity alternative motor generators.
HYDRO ENERGIA S.r.l.	2015	Albania	Assistance during the commissioning of "Lena" hydroelectric power plant.
TEP ENERGY SOLUTION S.r.l.	2015	Villa d'Ogna (BG) Italy	Engineering activities for the evaluation of energy optimizations at an important chemical factory producing synthetic fibers.

Client	Year	Site	Description
Gruppo cooperativo multi utility	2014	Priolo Gargallo (SR) Italy	Basic engineering and cost estimation needed for the drawing up of a "turn-key" offer for the construction of an electric power plant with a turboexpander operating on natural gas.
MANUCOR S.p.A.	2014	Sessa Aurunca (CE) Italy	EPCM service contract for the revamping of a 15.5 MW trigeneration power plant, using five natural gas fueled motor generators, including a system for production and distribution of heat transfer fluid of about 4 MW .
TRELLEBORG WHEEL SYSTEMS AMERICAS, INC.	2014	Spartanburg, SC USA	Basic mechanical and electro-instrumental engineering activities for the new systems for production and distribution of utilities for the manufacturing process of the USA factory.
HYDRO ENERGIA S.r.l.	2014	Albania	Electro-instrumental and automation engineering activities for No. 3 hydroelectric power plants.
A2L ENERGY S.r.l.	2014	Crusinello (VB) Italy	EPCM agreement for the construction of a c.a. 3.7 MW natural gas cogeneration power plant with gas turbines, including assistance with the authorization procedure.
Importante gruppo operante nel settore delle costruzioni e nell'ingegneria	2014	Israel	Basic engineering activities needed for the drawing up of technical documentation for a "turn-key" offer for the construction of a new 60 MWe natural gas fueled combined cycle power plant, to be installed in Israel.
Azienda operante nel settore del film in polietilene	2014	Schkopau Germany	Engineering activities for the basic design of a new 6 MWth free cooling plant for process water.
Futura Bio Energy Development S.r.l.	2014	Italy	Engineering activities for the basic design of a thermal power plant fueled by wood biomass (electrical power 1 MW).
EUROGRAVURE S.p.A. Arti Group	2014	Treviglio (BG) Italy	Maintenance activities on the electro-instrumental system in the Treviglio factory, including the HV/MV substation.
Gruppo cooperativo multi utility	2014	Santa Vittoria d'Alba (CN) Italy	Basic engineering activities and cost estimation needed for the drawing up of a "turn-key" offer for the construction of a new 3.4 MW natural gas fueled cogeneration power plant, using gas turbines.
EDP Renewables Italia S.r.l.	2013	Genzano di Lucania (PZ) Italy	Electromechanical and civil engineering activities for the new MV/HV electrical substation for the "La Rocca" wind farm.
Azienda operante nel settore della produzione di skid	2013	Italy	Annual framework contract for the basic and detailed mechanical and electrical engineering activities.
U.S. CORPORATE (contratto regolato da/ contract governed by a NDA)	2013	Italy	Drawing up of technical and financial documentation needed to apply for funding and non-repayable grant to be submitted to the Piedmont Region for the construction of a new 7.5 MW natural gas fueled trigeneration power plant.
U.S. CORPORATE (contratto regolato da/ contract governed by a NDA)	2013	Italy	Basic engineering activities, feasibility study and assistance with the authorization procedure for a new 7.5 MW natural gas fueled trigeneration power plant, with No.1 gas turbine, to be installed in the Piedmont Region, including a recovery system for the production of heat transfer fluid with a heat rating of about 5 MW.
MAFLOW BRS S.r.l.	2013	Ascoli Piceno (AP) Italy	Multiannual agreement for Steam Supply (18 bar-g saturated steam, maximum flow rate: 10 t/h) for the manufacturing process at the factory and general heating needs - duration: 5 years. Investment made in the Third-Party Financing mode.
Azienda operante nel settore delle costruzioni navali	2012	Italy	Engineering consultancy for the basic design of a 46 MWth wood biomass-thermal power plant.
Cartiera tra le principali produttrici di bobine di carta riciclata in italia	2012	Ponte all'Ania (LU) Italy	Basic engineering activities and assistance with the authorization procedure for a new 10 MW natural gas fueled cogeneration power plant, with 2 gas turbines.
TRELLEBORG WHEEL SYSTEMS ITALIA S.p.A.	2012	Tivoli (RM) Italy	Engineering activities for the enhancement of systems serving Villa Adriana factory's vulcanization chambers, such as: doubling of the production system, storage and distribution of 28 bar superheated water; expansion of the condense water collection system; new 21 bar steam generation system producing 15 ton/h.
MANULI HYDRAULICS MANUFACTURING S.p. z.o.o.	2012	Radomsko Poland	Turn-key contract for the construction of a 2,433 kWe natural gas cogeneration power plant, with combined production of electricity, steam and hot water.
MANULI HYDRAULICS MANUFACTURING S.p. z.o.o.	2012	Radomsko Poland	Feasibility study and basic design activities for a new 2,433 kW natural gas cogeneration power plant for the combined production of electricity, steam and hot water.

Client	Year	Site	Description
Condominio/Apartment building	2012	Gravellona Toce (VB) Italy	Agreement for Thermal Energy Supply (hot water for the heating of an apartment building), produced through the installation of a high efficiency natural gas fueled condensing boiler, - minimum contract duration: 10 years. Investment made in the Third Party Financing mode.
Comune di Strona/ Municipality of Strona (VB)	2012	Strona (VB) Italy	Agreement for Thermal Energy Supply (hot water for the heating of municipality, post office and schools), produced through the installation of high efficiency natural gas fueled condensing boilers, - minimum contract duration: 12 years. Investment made in the Third Party Financing mode.
MANULI HYDRAULICS MANUFACTURING S.p. z.o.o.	2011	Radomsko Poland	Support for the design of a new 45 ton/h saturated steam power plant and utilities distribution system (demineralised water, hot water, compressed air) at the new production centre in Radomsko.
BIOMASSE CROTONE S.p.A.	2011	Crotone (KR) Italy	Turn-key contract for the engineering, procurement, installation and commissioning of a Balance Of Plant (mechanical, electrical, instrumentation and automation) relating to the revamping of the 27 MW biomass plant.
Ce.PIM S.p.A. Gruppo ENI	2010	Fontevivo (PR) Italy	Turn-key contract for the construction of a peaking rated capacity of 999 kW photovoltaic power plant , located on the logistic centre's roof in Parma.
BIOMASSE CROTONE S.p.A.	2010	Crotone (KR) Italy	Design and construction management activities (EPCM) for the revamping of a 27 MW biomass plant.
Multinational paper mill, world leader in the design and production of release media	2010	Crusinallo (VB) Italy	Basic engineering activities and assistance with the authorization procedure for a new 3.7 MW natural gas fueled cogeneration power plant, with 1 gas turbine, to be installed at the paper factory.
VOLTA S.p.A.	2010	Greve in Chianti (FI) Italy	Turn-key contract for the engineering, procurement, installation and commissioning of a Balance Of Plant of a peaking thermal power plant in Combined Cycle configuration, electrical power 58 MW, at Sacchi cement factory.
Ce.PIM S.p.A. Gruppo ENI	2010	Fontevivo (PR) Italy	Engineering consultancy for the basic design and drawing-up of permits for a liquid biomass cogeneration power plant at the logistic centre in Parma.
Company operating in the renewable energy sector	2010	Siracusa (SR) Italy	Services for carrying out of pyrogasification tests of residual sludge coming from the sewage treatment system owned by Saceccav.
MEMC ELECTRONIC MATERIALS S.p.A. Sun Edison Semiconductor	2010	Novara (NO) Italy	Agreement for Refrigerating Energy Supply (chilled water), produced through the installation of a new compression chiller with variable speed activation, refrigerating capacity of 3,500 kW. Investment made in the Third Party Financing mode.
Company producing renewable energy	2009	Fossalta di Portogruaro (VE) Italy	Engineering consultancy for the technical validation of the BOP subsystems of a 49 MWth wood biomass-thermal power plant.
Company operating in the renewable energy sector	2009	Augusta (SR) Italy	Engineering consultancy for the basic design of the BOP electromechanical systems of a 49 MWth wood biomass-thermal power plant, to be constructed on behalf of an important multi-utility.
Company operating in the renewable energy sector	2009	Alessandria (AL) Italy	Engineering consultancy for the basic design of the BOP electromechanical systems of a wood biomass-thermal power plant of about 30 MWth, to be constructed on behalf of an important multi-utility.
CO-VER Industrial S.r.l.	2009	Chieti (CH) Italy	Engineering consultancy contract for the management of a technical and economic due diligence aimed at the validation of purchasing the corporate shares and drawing-up of the EPC contract for the construction of a 49 MWth thermal power plant running on solid biomass, owned by DAFIN S.p.A. (Chieti).
OESA	2009	Malagrotta (RM) Italy	Service contract for tuning in the 13 MW thermal power plant powered by syngas, produced by the RDF pyrolysis plant installed at the landfill site in Malagrotta (Rome).
German multinational operating in the field of roto-offset printing	2009	Germany	Engineering activities for the design of a 7 MW cogeneration power plant and hot water distribution system, to be realized at Roto-Offset Gotha-Druck printing factory (D).
TRELLEBORG WHEEL SYSTEMS ITALIA S.p.A.	2009	Tivoli (RM) Italy	Feasibility study and engineering activities for the design and construction of a 5 MWe cogeneration power plant to be built at Villa Adriana tire factory (Rome).

Client	Year	Site	Description
TRELLEBORG WHEEL SYSTEMS ITALIA S.p.A.	2009	Tivoli (RM) Italy	Turn-key contract for the repowering of a 28 bar superheated water generation and distribution system for the running of the vulcanization department at Villa Adriana tire factory (Rome).
German multinational operating in the field of gravure printing	2008	Liverpool United Kingdom	Supervision service to the managing activities of the thermoelectric power plant in Liverpool.
CO-VER Energia S.r.l.	2008	San Salvatore (RC) Italy	Turn-key contract for the construction of a high voltage electrical substation for the connection of the hydroelectric power station in San Salvatore (Reggio Calabria) to the national power supply network.
Primary company operating in the glass packaging sector	2008	Fossalta di Portogruaro (VE) Italy	Turn-key contract for the construction of a 1,4 Mw Rankine cycle thermal power plant, for thermal energy recovery produced by melting furnaces.
SIMPE	2008	Acerra (NA) Italy	Turn-key contract for the construction of a refrigerating system and a plant for production and distribution of chilling water at "Ex Montefibre" industrial area.
FIDION	2008	Acerra (NA) Italy	Turn-key contract for the construction of a pneumatic power plant (overall production of ca. 10.000 Nmc/h of dried and defatted compressed air, 9 barg) at "Ex Montefibre" industrial pole.
NGP S.p.A.	2008	Acerra (NA) Italy	Turn-key contract for electromechanical works necessary for the revamping of production and distribution of utility systems including: chilled water, compressed air, nitrogen, cooling water, electricity, demineralised water, raw water and drinking water, to be constructed at the "Ex Montefibre" industrial area.
CO-VER Industrial Holding S.r.l.	2008	Anagni (FR) Italy	Engineering consultancy for the management of a technical and economic due diligence, aimed at the evaluation of purchasing the corporate shares and drawing-up of the EPC contract for the construction of a 49 MWth thermal power plant, running on solid biomass, owned by a primary "grappa" producer.
Multinational leader in the production of synthetic textile yarns Aquafil Group	2008	Ljubljana Slovenia	Engineering consultancy to optimize the energy efficiency of production systems and distribution of utilities to the production process.
Cooperative active in the production and distribution of energy	2007	Morbegno (SO) Italy	Turn-key contract for the construction of a cogeneration and district heating power plant of 15 electrical MW and about 30 thermal MW. PHASE II.
German multinational operating in the field of gravure printing	2007	Liverpool United Kingdom	Supervision service to the managing activities of the thermoelectric power plant in Liverpool.
EUROGRAVURE S.p.A. Arti Group	2007	Treviglio (BG) Italy	Service contract including: energy management, operation and ordinary maintenance of the 10 MW trigeneration power plant.
EUROGRAVURE S.p.A. Arti Group	2007	Treviglio (BG) Italy	Engineering consultancy for the design of the trigeneration power plant upgrade and for a feasibility study of a district heating system serving industrial and institutional users in the town.
Primary floriculture group	2007	Candela (FG) Italy	Engineering consultancy for the design activities supervision of the district heating system and back-up power plants, to be constructed at the garden centre area in Candela (Foggia), enhancing the condensation heat rating of the adjacent combined cycle power plant, with a rated capacity of about 400 MW.
NGP S.p.A.	2007	Acerra (Na) Italy	Turn-key contract for the construction of a new thermal power plant with 3 superheated steam generators at "Ex Montefibre" industrial area, for a total capacity of 45,000 kg/h.
NGP S.p.A.	2007	Acerra (NA) Italy	Engineering activities for the design of a new superheated steam generation and distribution system rated 60t/h at "Montefibre" industrial area.
MANULI RUBBER INDUSTRIES S.p.A.	2007	Ascoli Piceno (AP) Italy	Agreement for Energy Supply Service (electricity, steam and hot water), produced through the construction of a new natural gas fueled cogeneration power plant, with a rated capacity of about 5 MW - minimum contract duration: 10 years. Investment made in the Third-Party Financing mode.
Leading company in the production of adhesives	2006	Villadossola (VB) Italy	Engineering activities for the design of a cogeneration power plant, electrical power 2.4 MWe, including combined production of steam and hot water.

Client	Year	Site	Description
Primary floriculture group	2006	Melfi (PZ) Italy	Turn-key contract for the construction of 2 thermal power plants, electrical power 32 MWth and relevant interconnecting system with the district heating coming from a 50MWe Thermal Power Plant.
German multinational operating in the field of gravure printing	2006	Liverpool United Kingdom	Supervision service to the managing activities of the thermoelectric power plant in Liverpool.
Cooperative active in the production and distribution of energy	2006	Morbegno (SO) Italy	Turn-key contract for the construction of a cogeneration and district heating power plant, electrical power 15 MWe and about 30 MWth. PHASE I.
German multinational operating in the field of gravure printing	2005	Liverpool United Kingdom	Turn-key contract for the construction of a medium-voltage (11kV) electrical system and of a low-voltage electrical system (sub-stations, power center, MCC) and the execution of the electro-instrumental process plant engineering. New Rotogravure Printing Factory.
German multinational operating in the field of gravure printing	2005	Liverpool United Kingdom	Turn-key contract for the construction of a trigeneration power plant with two 11 MW gas turbines; distribution of utilities (steam, chilled water, hot water, compressed air, vacuum) to the factory, new Rotogravure Printing Factory.
German multinational operating in the field of gravure printing	2005	Liverpool United Kingdom	Turn-key contract for the construction of air conditioning and lighting and FM connections, new Rotogravure Printing Factory.
MEMC ELECTRONIC MATERIALS S.p.A. Sun Edison Semiconductor	2005	Novara (NO) Italy	Multiannual agreement for Energy Supply Service (electricity, steam, chilled water), produced through the construction of a new natural gas fueled trigeneration power plant, with a rated capacity of about 11 MWe, including a heat transfer fluid thermal power plant for the production of about 10 t/h steam through an indirect steam generator. Investment made in the Third-Party Financing mode.
German multinational operating in the field of gravure printing	2004	Liverpool United Kingdom	Basic design for the new Rotogravure Printing Factory, including validation activities of architectural, structural, mechanical and electrical design with the local authorities.
Manufacturer of polyamides worldwide	2004	Novara (NO) Italy	Turn-key contract for a pilot plant for the catalytic distribution of nitrous oxide, including a heating recovery system for steam production.
EUROGRAVURE S.p.A. Arti Group	2004	Treviglio (BG) Italy	Engineering, supply and commissioning of a hot water recovery loop from recovery economizers aimed at the production of chilled water.
EUROGRAVURE S.p.A. Arti Group	2004	Treviglio (BG) Italy	Engineering, supply and commissioning of a recovery loop including a hot water accumulator for the production and distribution of thermal power for civil and process conditioning.
EUROGRAVURE S.p.A. Arti Group	2003	Treviglio (BG) Italy	Turn-key contract for the construction of a 10 MW cogeneration power plant with 2 gas turbines, including a heat recovery system for the production of steam and chilled water.
Leading company in the field of gas turbine construction and energy production plants	2003	Gorizia (GO) Italy	Turn-key contract for the engineering, procurement, installation and commissioning of a Balance Of Plant in a peaking thermal power plant in Combined Cycle configuration, electrical power: 62 MW.
Paper industry leading paper mill	2003	Fabriano (AN) Italy	Turn-key contract for the construction of a 15 MW steam turbine by-pass system.
Leading company in the energy services sector	2002	Sessa Aurunca (CE) Italy	Turn-key contract for the construction of a 7 MW trigeneration power plant based on natural gas combustion engines, including thermal recovery systems (2,8 MW chilled water, 2 MW heat transfer fluid and 2 MW hot water) at MANULI FILM factory.
Primary company operating in the extraction and processing of kaolin	2001	Hirschau Germany	Turn-key contract for the construction of a 20 MW combined cycle cogeneration power plant.
Primary company operating in the extraction and processing of kaolin	2001	Hirschau Germany	Engineering, procurement and commissioning of a supervisory and control system for the cogeneration power plant and the kaolin drying process.
Company operating in the textile sector	2001	Ghemme (NO) Italy	Turn-key contract for the construction of a system for energy recovery from process effluents.
Primary company operating in the extraction and processing of kaolin	2001	Hirschau Germany	Turn-key contract for the construction of a combustion system with natural gas for the kaolin drying process, with a heat rating of 6 MW.
